

REMARKS

The Examiner has required an election in the present application between:

Species A, directed to a liquid crystal display (LCD) device in which a gate line has a repair pattern (claims 1-8, 16-18 and 22-23); and

Species B, directed to an LCD device in which a pixel electrode has a repair pattern (claims 9-15, 19-21 and 24-25).

For the purpose of examination of the present application, Applicants elect Species A, directed to claims 1-8, 16-18 and 22-23, with traverse.

Applicants traverse the election requirement since it is believed that the examination of all pending claims 1-25 would not place serious burden on the Examiner. Accordingly, reconsideration and withdrawal of the election requirement, and examination of all claims 1-25 are respectfully requested.

Should there be any outstanding matters that need to be resolved in the present application, the Examiner is respectfully requested to contact the undersigned at the telephone number of the undersigned below, to conduct an interview in an effort to expedite prosecution in connection with the present application.
